Home Care Clients

All seniors have the freedom to choose their own home care agency. Medicaid recipients have this freedom just as private pay clients do. Carolina Select Home Care sets the standard for quality in at home living assistance. They employ over 100 certified nursing assistants. Carolina Select serves 10 counties of northwest NC including Alleghany County. At home living assistance is the only thing Carolina Select Home Care does. That means they are 100% dedicated to you and the quality of service you receive - now and in the future. Their qualified nurse aides provide health related help at home including: cleaning, laundry, cooking, assistance with medicines, health monitoring, bathing, bed-bound care, and other assistance as needed. Carolina Select is currently accepting new clients and experienced aides.
