Do You Qualify?

If you think you or someone you know may benefit from the services of a nurse or therapist at home, call Hometown Home Health today to discuss the situation. To qualify for Medicare or Medicaid payment, a patient must need the skilled services of a nurse or therapist. A patient must also qualify as home-bound (i.e. - leaving the home requires a lot of effort, and trips outside the home are infrequent). A physician must authorize the home health care.
